

**CALLING ALL UNDERGRADUATE PHILOSOPHY  
STUDENTS IN THE STATE OF UTAH!**

**ARE YOU INTERESTED IN  
APPLYING TO GRADUATE  
SCHOOL IN PHILOSOPHY?**

Then we need you on board for a new online project seeking to organize Utah undergraduate philosophy students. Every philosophy graduate school application requires a writing sample. A writing sample is a 12-20pp. paper. It answers the request, “Can you write us a paper that shows that you have the potential to produce promising work in our program?” It is the most important part of the philosophy graduate school application. It is also the component of your application which, even if you plan to apply in just a few months, at this time you still can have a lot of influence over. Now, most people use a paper they have written for a class as the basis of their writing sample. But if you take the writing sample seriously (as you should), you could get on board right now (by the first deadline) and have workshopped a world-class paper ready for grad school applications by the beginning of December 2018, once the first wave of application deadlines arrives.
